

## We are the Peer Contact for GSP (Communication and Interaction)

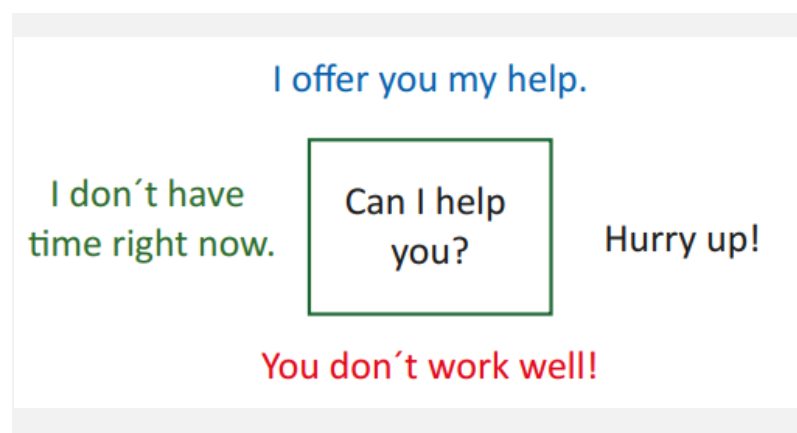

### What we do:

- Introduction of a basic knowledge of communication
- Communication is the basis for collaboration in the research team
- Communication models, e.g. communication square (Schulz von Thun)

### How does this support GSP:

- Better understanding for each other and more mutual trust
- An ongoing communication process enables detection of problems at an early stage
- Fewer misunderstandings arise
- Fewer "errors" occur (deviation from expectations/requirements)

According to: Möller-Hahlbrock T, Schromm AB, Ehlers S, Fehrenbach H (2015) Gute wissenschaftliche Praxis – Das Borsteler Modell. DOI 10.4126/FRL01-006399232

### What we do:

- We are active listeners for GSP topics and questions (time, interest, attention)

### How does this support GSP:

- Early detection of faults prevents long-term and serious consequences

## Error Cost Curve
