

GSP Coordination

Work with the scientific integrity scouts:

- Conception and implementation of scientific integrity scouts` meetings and reflection meetings
- Organization of GSP days with external speakers
- Handouts of GSP materials (GSP flyer German/English), GSP introduction German/English, GSP brochure
- Conception of moderation or refresher trainings for scientific integrity scouts
- Kickoff meeting for new research groups

How does this promote GSP:

- **Implementing the GSP concept at the FZB**
- **We create a foundation for cultural change (GSP in thinking, feeling and acting)**
- **We connect different levels (ombudsperson level/everyday research)**
- **Empowerment of the scientific integrity scouts**

Conception and further development of the Borstel Model:

- Advising the Extended Board of directors (archiving system, electronic lab books, etc.)
- Drafting of guidelines, cooperation with the ombudsman committee on collective agreements
- Incorporating the Borstel model into the concept for management training
- GSP as a topic for science-associated areas
- Identification of new topics, hurdles or obstacles in GSP work
- New formats for GSP training
- External networking

How does this promote GSP:

- **Implementation and further development of the GSP concept at the FZB**
- **Structural set up (guidelines, infrastructure)**
- **Foundation for a cultural change (GSP in thinking, feeling and acting)**
- **Connecting the code, ombudsperson level and day-to day practice**
